NEWS FROM THE METROPOLIS

Counting the Electoral Vote.

National Associated Press to the Star. New York, Dec. 18.—A Herald special from Washington says there is a very decided prospect that the whole question in all the various phases of the counting of the Electoral votes will be under consideration by a joint committee of the two Houses by Wednesday next at the furthest. Senator Edmunds states that the Senate, on Monday, will concur in his opinion without debate or even discussing the proposition of the House for such a committee to argue and settle the mode of determining the vote, which will be satisfactory to both parties in and out of Congress. The complete report of the joint conventions which have counted the Electoral vote since the foundation of the Government have been compiled for the use of Congress and the Committee, and there will be no delay in getting at work at the earliest practicable moment. A conclusion, it is said, can be reached after the fullest conference, by the middle of January.

End of the Railroad War.

The railroad war on freight has at last been ended, and to-day is to take a general advance in freight rates. Estimated freight rates from Chicago will be advanced to 30 cents per 100 lbs. on grain and flour, and to 35 cents per 100 lbs. on fourth class and provisions. West-bound freights will be advanced to 30 cents per 100 lbs. on first-class, and in the same proportion on other classes all through. The competitive rates will be the same on all the lines. On purely local rates, as between Chicago and New York, Baltimore and Philadelphia, Baltimore and New York, and Philadelphia and New York, the competitive rates between St. Louis and New York, Baltimore and Philadelphia, the discrimination against this city will be about 15 per cent. in favor of Baltimore, and about 10 per cent. in favor of Philadelphia. Railroad men say, officially, under the new arrangement, shipments of traffic in either direction from all competitive

points to Western points, beyond the terminus of the several lines, or to Europe through Portland, Boston, New York, Philadelphia and Baltimore, are to be the same in aggregate cost to the shipper, owner or consignee, whether the same be shipped on through bills of lading or by combined rates.

Criminal Matters.

New York, Dec. 18.—A dispatch from Postville says that Saturday night, at Mauch Chunk, the jury brought in a verdict of guilty of murder in the first degree against Thomas P. Fisher, and guilty of murder in the second degree against Patrick McKinney, indicted for the murder of Morgan Powell at Summit Hill in 1871. Yellow Jack Donohue was convicted of this crime about two months ago.

Edward Skiverton and John Fleming attacked the dwelling of Jacob Summit, at Beaver Dale, Pennsylvania, Saturday evening. Summit fired at them through the window and fatally wounded Skiverton.

Dr. Edwin Eldridge, one of the foremost citizens of Elmira, N. Y., died at his home Saturday, of pneumonia after two days' sickness.

These Dispatches.

New York, Dec. 18.—A special from Washington says that Secretary Chandler has no objection to the House Committee examining his dispatches; he has always regarded it an imprudence to commit a secret to the telegraph, and was careful during the whole campaign to trust nothing to the wires which he was not willing the Democrats should see.

Senator Horton's visit to Indiana, it is said, was to secure the safety of munitions of war stored in Indianapolis.

THE DISPUTED SOUTH.

National Associated Press to the Star.

TALLAHASSEE, Dec. 18.—In the final comparison of the registry lists of Leon County by the Congressional Committee, Mr. Thompson, Chairman, said he had not a shadow of doubt that six or seven hundred illegal Republican votes were polled in that county alone. One Henry Williams appears on the list ten times, John Wilson seven times, and many others nearly as often.

The Senate Committee has arrived and are in consultation with the local politicians. It is said that the Committee will not go into a specific and detailed examination, as the House Committee has done, but will take the mass of the exparte affidavits, with which the Canvassing Board sustains its action, and make them the basis of its report.

Judge Cooke, of the Canvassing Board, authentic the statement that the official minutes of the Canvassing Board published under the signature of the Clerk a few days since are false in several particulars. He complains that they misrepresent his votes on several issues, and avers that he voted with his colleagues when he voted directly and emphatically against them.

South Carolina.

National Associated Press to the Star.

COLUMBIA, Dec. 18.—There are no new developments in the political situation, but a rumor which is gaining prevalence says that Governor Chamberlain is about to arrest Messrs. Hampton and Simpson upon a charge of treason. The report is that the arrest will be stubbornly resisted. The general opinion here is that there is no law for the contemplated arrest.

(Cincinnati Enquirer Special.)

COLUMBIA, Dec. 17.—The House Committee has succeeded in proving the returns from nearly all the missing precincts, and the result of their labors has been to show conclusively that on the face of the returns three Democratic members had a fair majority, and were counted out by the basest fraud on the part of Chamberlain's gang. Since the Republicans seem anxious to go into the outrage business, the House Committee has determined to examine a few hundred witnesses to show the villainous conduct pursued by negro Republicans against Democratic negroes. They will also prove by Republican testimony that there was a conspiracy to provoke a conflict between the whites and the negroes, and that Corbin was the chief instigator of this condition of affairs.

(New York Times Special.)

COLUMBIA, Dec. 17.—The House Investigating Committee last night concluded their efforts to discover a flaw in the precinct returns which should change the Electoral vote as declared by the State Board of Canvassers. They have utterly failed to accomplish anything in the line of investigation, although all witnesses thus far examined were called in the interest of the Democrats. They have proven enough, however, to open the door for a legitimate and fair increase of the Republican majority for both Electoral and State tickets. The Democrats on the Committee, just before adjournment, made the assurance to propose that no further testimony be taken here, but that the Committee, divide itself into three sub-committees, and go out to different parts of the State using for evidence.

Dr. Stich stated that there would be no difficulty if Dr. Mallely could show that he is legally entitled to fill the position for another year, and that he would be foolish to give it up. Dr. Stich is also going to consult his attorney as to the matter, which will without doubt be amicably settled.

Entwistle's End.

An inquest was held on the body of James Entwistle, who died Saturday evening at the Hospital from wounds received by being struck by the tongue of a street car on the 14th inst. Drs. Kieley and Hellman attended to him while there.

The deceased was sixty years old, was born in Manchester, England, and was a painter.

M. A. Harper testified that on last Friday the deceased came into his shop at 185 Race street, when he saw that his clothes were all dirty. I asked him what did it, and he said a street car at Vine and Third had run against his head and knocked him down the evening previous. I got a wagon and had him taken to the Hospital.

Harrison Payne, the driver, testified that while going east on Third, past Vine, he noticed the deceased just about to cross Third street, going south. As he was near the track I called to him "look out," but he paid no attention and passed right around in front of the horses, and then I think the high horse knocked him down; don't think the pole struck him; I stopped at once and found him between the horses; I was just about to start into a trot when he ran in front of me.

Dr. W. E. Kieley stated that at the Hospital the deceased told him he was on his way home, and in crossing Third street the pole of a car knocked him down; said the driver told him that he had knocked him down, and the deceased said, "If he did I did not hear it." He told me he was unable to run in order to get in front of the car, as he was suffering from a paralytic stroke, and I judged so from his condition. After death I found two ribs broken on the right side. The immediate cause of his death was traumatic pleurisy superinduced by the injuries.

A verdict was given that the deceased came to his death from "traumatic pleurisy, superinduced by being struck by street car No. 3, Third-street line, December 14, 1876."
